SEVITHA LAKSHMI BOLLINENI

Flower Mound, TX | sevithalakshmi.bollineni@gmail.com

SUMMARY

First-year Computer Science student at the University of Texas at Dallas who loves building projects and learning new technologies with strong interest in Agentic AI and experience in Java and C++. Independently designed an education program from scratch and led a student organization, which developed my ability to work in a team, take responsibility for a project, and communicate my thoughts clearly.

EDUCATION

University of Texas at Dallas, Richardson, TX — Expected May 2030
Bachelor of Science in Computer Science

- AES Scholarship recipient
- Relevant Coursework: Differential Calculus, CS 2 (C++), Foundations in Engineering and Computer Science I, Intro to Engineering and Computer Science, Professional and Technical Communication, Financial Accounting

TECHNICAL SKILLS

Languages: Java, C++, Matlabs
Tools & Platforms: Microsoft Office (Word, PowerPoint, Excel)

WORK EXPERIENCE

OneInMath, Flower Mound, TX — August 2024 – April 2026
Math Tutor, Grades K–3

- Taught foundational math concepts to a group of 5 to 6 elementary students, tailored explanations according to different learning styles; this method accelerated the students learning and enabled a first grader to understand and apply third-grade level math concepts.
- Built strong communication and mentoring skills through consistent one-on-one and small-group instruction.

ACADEMIC & PERSONAL PROJECTS

Independent Summer Coding Program — June 2025 – July 2025

- Designed and lead a summer program introducing computer science fundamentals to a group of ten students, grades 3 through 5, resulting in students building and presenting their own project (games, music video) by the end of the course using Scratch by MIT.
- Built a curriculum covering sequencing, loops, conditionals, and creative problem-solving, personalizing problems to students interest (e.g., basketball, cars) to make learning engaging.
- Directed every aspect of the program (marketing, lesson planning, and instruction) demonstrating initiative and independent project ownership.

ORGANIZATIONS

Computer Science Club, Flower Mound High School, *Vice President* — September 2025 – April 2026

- Co-led a student organization dedicated to computer science, made posters, planned general meetings, and coding activities for members.
- Partnered with fellow officers and the faculty advisor to introduce club members to online coding challenges like CodeChef, encouraging consistent practice and skill-building outside of meetings.
- Supported five newer members in building programming skills like java through peer mentoring and collaborative projects.

DECA, Flower Mound High School, *Member* — 2023 – 2026

- Competed in DECA competitions for three consecutive years, developing skills in case analysis, presentation, and teamwork.
- Designed a business concept for DECA's Innovation Plan event: an agritech app delivering farmers insights related to weather pest control, and other farm specific factors customized for user's farm.
